# PSYCHOLOGICAL ABSTRACTS

---

VOLUME 79, SUBJECT INDEX II

JANUARY-DECEMBER 1992

# PSYCHOLOGICAL ABSTRACTS® IS OPENING A NEW CHAPTER!

Now a single print product gives users access to chapter, book, and journal information from all areas of psychology and related disciplines. APA's *Psychological Abstracts (PA)* brings users nearly 3,000 journal abstracts every month and NOW includes book chapter and book information\*. Both psychologists and librarians have reported that they want the convenience of having a single source for ALL of the information available from books, book chapters, and journals. That's why chapter and book summaries are included in the monthly issues of PA.

PA gives you users an overview of research in psychology and related fields, sums up articles from over 1,300 English-language journals and over 1,500 books annually, shows everything that's new in a given specialty, and much more!

Don't miss out on psychology's richest resource on current literature! PA is priced at \$1,245 per year for institutions. Well worth it for over 3,750 journal and book abstracts per month!

For more information, write to:

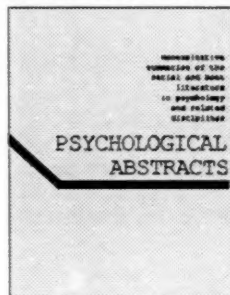

American Psychological Association, 750 First Street, NE, Washington, DC 20002-4242, or call: 800-374-2722. In Washington, DC call 202-336-5650.

*Psychological Abstracts*...

- reports advances appearing in journals and books that may not be read on a regular basis
- enables users to pick up main ideas at a glance by highlighting the key points in a given document
- saves research time by virtue of PA complete bibliographic data for all citations
- and lets users find what they need in a hurry with its reader-friendly indexes for each month and year.

\*This book-related material previously appeared separately in *PsyBOOKS*.

\*\*Summaries in PA will continue to be grouped by subject classification, as well as now by source: SERIAL, BOOKS, and CHAPTERS. We've retained the style which PA subscribers find most efficient, and integrated the strengths of the former version of *PsyBOOKS*.

PsycINFO®  
INFORMATION SERVICES IN PSYCHOLOGY

PsycINFO  
INFORMATION SERVICES IN PSYCHOLOGY

PsycINFO, a family of interrelated information services, provides access to the literature in psychology and related behavioral and social sciences in a variety of ways. PsycINFO consists of:

**Psychological Abstracts (PA) journal** (ISSN 0033-2887). The comprehensive monthly compilation of nonevaluative summaries of the serial and book literature in psychology and related disciplines.

**Issue.** The monthly PA issues contain entries listed under 22 major classification categories, with some categories having subsections, as shown in the Table of Contents. Under each classification heading, the records are arranged alphabetically by first author, and are numbered consecutively each year. The volume contains approximately 45,000 records.

**Indexes.** An author, brief subject, and book title index appear in each monthly issue. An expanded and integrated annual index is published at the end of each volume.

**PsycSCAN®: Clinical Psychology, Developmental Psychology and Applied Psychology.** Quarterly publications containing abstracts from subscriber-selected journals in the areas of clinical psychology, developmental psychology, and applied psychology, respectively.

**PsycSCAN: Applied Experimental & Engineering Psychology.** Quarterly publication containing abstracts in the area of applied experimental and engineering psychology.

**PsycSCAN: LDMR.** A quarterly publication containing abstracts on learning disabilities, communication disorders, and mental retardation.

**PsycSCAN: Neuropsychology.** A quarterly publication covering the clinical and human cognitive experimental areas of neuropsychology.

**Psychoanalytic Abstracts.** Formerly PsycSCAN: Psychoanalysis. Quarterly publication containing abstracts in the area of psychoanalysis.

**PsycBOOKS: Books & Chapters in Psychology.** An annual five-volume compilation (ISSN 1044-1514) of information on books and chapters in psychology and related disciplines covering 1987-1990.

**The Thesaurus of Psychological Index Terms® 1991.** A compilation of the vocabulary used in psychology and related disciplines as generated from the files of PA.

**PsycINFO User Manual® 1992.** Developed for the individual researcher of the information available from PsycINFO services, whether through use of the printed PA issues and indexes or by computer-assisted search of the database.

For more information on the above products, uses, and costs write to PsycINFO, American Psychological Association, 750 First Street, N.E., Washington, D.C. 20002-4242. **Psychological Abstracts** is printed on acid-free paper.

**Psychological Abstracts** (ISSN 0033-2887) is published monthly for \$1245 domestic, \$1290 foreign (APA member price \$622) by the American Psychological Association, 750 First Street, N.E., Washington, D.C. 20002-4242. Second-class postage paid at Washington, D.C., and additional mailing offices. **Postmaster:** Send address changes to **Psychological Abstracts**, 750 First Street, N.E., Washington, D.C. 20002-4242.

**Correspondence** on copyright matters should be directed to the PsycINFO Permissions Department; back issue sales to the Order Department; and subscriptions and address changes to the Subscription Manager. All correspondence should be addressed to the American Psychological Association, 750 First Street, N.E., Washington, D.C. 20002-4242. For information regarding microform editions write to University Microfilms, 300 North Zeeb Road, Ann Arbor, Michigan 48106.

For information on obtaining single copies of documents covered in PA, write Dynamic Information Corp., PO Box 990, Burlingame, CA 94010-1305 or 1722 Gilbreth Road, Burlingame, CA 94010-1305 (415-259-5000; FAX 415-259-5005); or in Maryland, 8904 Connecticut Avenue, Chevy Chase, MD 20815 (301-654-1995; FAX 301-654-7709).

**Address Changes** must reach Subscription Servicing Department, APA, 30 days prior to the actual change of address. Copies undelivered because of address change will not be replaced; subscribers should notify the post office that they will guarantee second-class forwarding postage. **Other Claims** for undelivered copies must be made within 4 months of publication. Address your claims to Subscription Manager, APA.

**Subscriptions** are available on a calendar-year basis only. (January through December).

# KEY TO TEXT

Examples are number coded to provide definition of their elements.

## SUBJECT INDEX

1. Index term. Index terms are PsycINFO's controlled indexing vocabulary as published in the *Thesaurus of Psychological Index Terms*.
2. Cross references.
3. Index phrase (experimental type). A short statement of the major concepts contained in the original document. An experimental type index phrase may consist of:
  - a. independent variable
  - b. dependent variable
  - c. subject population
  - d. form identifier
  - e. abstract number
4. Index phrase (descriptive phrase).
5. Book or chapter title.
6. Nonpostable term with see reference to postable term.

**ABBREVIATIONS:** In addition to commonly understood abbreviations\* (including all units of measurement, educational degrees, standard statistical abbreviations, and standard Latin and reference terms), standard abbreviations used in *Psychological Abstracts* records are:

CRT = cathode ray tube  
 DNA = deoxyribonucleic acid  
 EEG = electroencephalogram/electroencephalograph  
 EKG = electrocardiogram/electrocardiograph  
 ESP = extrasensory perception  
 FI = fixed interval  
 FR = fixed ratio  
 icv = intracerebroventricularly  
 im = intramuscularly  
 ip = intraperitoneally  
 IQ = intelligence quotient  
 iv = intravenously

LSD = lysergic acid diethylamide  
 po = orally  
 REM = rapid eye movement  
 RNA = ribonucleic acid  
 S = subject  
 sc = subcutaneously  
 TV = television  
 UK = United Kingdom  
 US = United States  
 USSR = Union of Soviet Socialist Republics  
 vi = variable interval  
 VR = variable ratio

Computer language and computer names will also be used without definition, eg., ALGOL, COBOL, FORTRAN, IBM 360  
 \*Consult Webster's New Collegiate Dictionary.

This Annual Subject Index, published in five volumes, consolidates more than 159,000 references to approximately 45,000 abstract records published in 12 monthly issues of *Psychological Abstracts* from January 1992 through December 1992. A companion work, the Annual Author Index, references these records by author and document title.

Index terms, selected from the *Thesaurus of Psychological Index Terms*, represent the literature covered for the periods indicated. Only terms assigned as major terms, reflecting the main focus of the article, appear in the printed subject index. (Terms assigned as minor do not appear in print but are available for online searching.) Subject matter content determines the specific terms used and, thus, not every thesaurus term will appear in every index. "See" and "See Also" references are present to direct the user to the preferred terminology or related areas of interest. Index phrases are alphabetically arranged under the appropriate index terms and represent a concise statement of the article's content or, when appropriate, identify the independent and dependent variables described in the material as well as the subject population. Style changes such as the increased use of abbreviations or the elimination of some hyphens may result in some inconsistencies and may affect the alphabetical order of phrases.

abrupt ethanol withdrawal, diurnal cycle of plasma cortisol, alcohol dependent males, 1889

acetyl-L-carnitine, mean level & circadian rhythm of cortisol, depressed male 66–79 yr olds, Italy, 28393

ACTH responses to corticotropin releasing factor & post-dexamethasone cortisol & ACTH levotryptophan, patients with minor vs major depression with vs without melancholia or psychotic features, Belgium, 9272

acute psychological stress during parachute jump, plasma cortisol & prolactin & TSH & somatotropin & LH, male 20–34 yr old experienced vs inexperienced military parachutists, 30441

adrenocortical stress reactivity & emotionality & quality of attachment, 9 mo olds, 4 mo followup, 19261

adverse job conditions, plasma cortisol & serum gamma glutamyl transpeptidase liver enzyme, male vs female prison employees, Sweden, 700

age & urinary free & basal cortisol excretion & dexamethasone, post dexamethasone cortisol, patients with major vs minor depression with vs without melancholia & vs psychosis, Belgium, 12861

age, DST response & hypercortisolism, yellow baboons, 11931

alcohol, prolactin & cortisol levels, 21–25 yr old females with vs without family history of alcoholism, 13168

alprazolam & behavioral guidance treatment, platelet serotonin binding & plasma cortisol, 18–52 yr olds with panic disorder with vs without agoraphobia, 32418

blood cortisol & circulating leucocytes & exploration & agonistic behavior & stress, silver fox vixens in wire cages with vs without nest boxes, 22706

Buddhist meditation, serum cortisol & total protein & BP & pulse rate & lung volume & RT, male 20–25 yr olds, Thailand, 15709

clinical features & symptoms, diurnal variations in salivary cortisol & DST, schizophrenic 19–68 yr olds, Japan, 43263

clomipramine as serotonergic probe, prolactin & growth hormone & cortisol levels, pathological gamblers, 13080

continuous mental task performance, cognitive performance & stress induced salivary cortisol, female 41–69 yr olds, 687

corticotropin releasing hormone challenge & DST, basal cortisol & ACTH & plasma dexamethasone, 25–77 yr olds with Huntington's disease, 13508

cortisol levels after detoxification, hypothalamus pituitary adrenal function, male violent &/or depressed alcoholic 25–60 yr olds, 39514

dexamethasone, plasma ACTH & cortisol & circulating lymphocyte subpopulations, hypercortisolemic 16–33 yr olds with anorexia vs bulimia, 43588

dexamethasone suppressibility of plasma ACTH & cortisol, 59–79 yr olds with Alzheimer's disease, 13498

diurnal rhythm & level of salivary cortisol secretion, depressed 10.2–15.9 yr olds assessed during depressed vs recovered states, 1672

DST, plasma pituitary  $\alpha$ -melanocyte stimulating hormone & ACTH & adrenal cortisol, depressed inpatients, 1683

DST, urinary & plasma cortisol & ACTH & beta endorphins, patients with minor vs major depression with vs without melancholia, Belgium, 1684

ethanol, serum prolactin & cortisol & epinephrine & norepinephrine, healthy male volunteers, 30539

group vs individual housing & exposure to fearful stimuli, plasma cortisol & social contact & posture & location, infant squirrel monkeys & their mothers, 34282

hospitalization outcome & plasma cortisol, female 19 yr old with lethal catatonia & premorbid personality traits, case reports, 3032

hydrocortisone, fast feedback inhibition of beta endorphin & lipotropin secretion, depressed patients, 1702

immigration of aggressive male into established group, behavioral & basal cortisol & lymphocyte & testosterone levels, male vs female victims vs nonvictims & aggressor yellow baboons, 42155

immunological changes & plasma cortisol & depression, suddenly bereaved 38–61 yr old parents, 8 mo study, 5615

in utero cocaine, invasive vs noninvasive stress induced salivary cortisol, preterm infants, 35450

isosexual association, plasma cortisol & heart rate & social interaction, female squirrel monkey dyads, 4640

lithium discontinuation vs oral inositol during prophylactic lithium, plasma thyroxine & thyroxine stimulating hormone & cortisol, euthymic bipolar 21–74 yr olds, 2708

m-chlorophenylpiperazine, positive & negative symptoms & cortisol & prolactin responses, schizophrenic males, 12923

minimum effective dose of corticotropin releasing hormone & ACTH & naloxone, vocalizations & plasma cortisol levels & locomotor activity & body temperature, isolated guinea pig pups, 4736

MK-212 & L-5-HTP, plasma cortisol & prolactin, male alcoholic 30–64 yr olds, conference presentation, 13167

morning plasma levels of immunoreactive beta endorphin & cortisol & growth hormone, obsessive compulsive 16–48 yr olds, 1781

morningness vs eveningness, early morning salivary cortisol, 23–39 yr olds, 26488

nicotine yield of cigarettes, subjective distress & discomfort & negative affect & peripheral beta endorphin & cortisol, 21–35 yr old male smokers, 26601

nighttime exercise induced physical stress, plasma cortisol & melatonin, male 28–33 yr olds, 38311

nocturnal secretion of plasma ACTH & serum cortisol & response to ovine corticotropin releasing hormone, abstinent alcoholic male 32–57 yr olds, 13170

on call duty, serum cortisol & ACTH, internal medicine residents, 7017

oral clonidine challenge, cortisol secretion, geriatric patients with primary degenerative dementia or major depressive disorder, 1580

ovine corticotropin releasing factor & age & sex & severity of illness, ACTH endorphins & cortisol response, patients with minor vs major depression with vs without melancholia, 43200

paired serum & salivary cortisol during DST, drug free vs medicated 9–17 yr old psychiatric patients, 19983

patterns of sleep & secretion of cortisol & prolactin & growth hormone & TSH during symptomatic & asymptomatic states, 30 yr old male with Kleine Levin syndrome, 2038

- electrical stimulation of hypothalamic paraventricular nucleus, analgesia not mediated by vasopressin or endogenous opioids, 2 strains of male rats, 30328
- electrical stimulation of midbrain vs hypothalamus, sexual behavior with female partner, male rhesus monkeys, 4456
- electrolytic lesions & mapping of lateral hypothalamus & subthalamus & anteroventral midbrain, aphagia, male rats, 634
- electrostimulation of lateral vs medial hypothalamus, reproduction of motor reaction UCS during development of classical alimentary vs defensive CR, dogs, 34131
- enlargement of suprachiasmatic nucleus, nondemented male homosexual vs heterosexual 21–73 yr olds who died of AIDS, 31882
- estradiol & vs progesterone with vs without parabrachial nuclei lesions, binding of cholecystokinin in ventromedial hypothalamus, ovariectomized female rats, 15815
- estradiol, neurite growth in organotypic cultures of hypothalamus or preoptic area or cerebral cortex, rodents, implications for sexual differentiation, 26683
- estradiol-17b & vs progesterone in ventromedial vs anterior hypothalamus vs medial amygdala, aggression & sexual behavior & serum estradiol, female Syrian hamsters, 18892
- estradiol-17beta vs testosterone vs 4-hydroxyestradiol-17beta vs dihydrotestosterone, activating & organizing effects on noradrenergic neurons in preoptic area & hypothalamus, male vs female rats, 34346
- estrogen exposure to & lesion of ventromedial nucleus & asymmetrical cuts lateral to medial preoptic area, sexual behavior, rats, 42057
- ethopharmacological conceptualization & study of hypothalamic aggression, rats, conference presentation, 19103
- fetal grafts of suprachiasmatic nucleus & bed nucleus of stria terminalis & medial amygdaloid nucleus, fiber outgrowth from vasopressin neurons, adult rats, 22523
- fimbria/fornix vs mammillary vs anterior thalamic lesions, performance on delayed nonmatching to position memory task, male rats, 8082

- fluoxetine, EEG sleep & hypothalamic temperature, hamsters, 26599
- food deprivation & refeeding, regulation of hypothalamic neuropeptide Y, male lean vs obese Zucker rats, 26361
- food deprivation, noradrenergic receptor binding in hypothalamic nuclei, obese rats, 26394
- function & peripubertal reduction in number of LH releasing hormone immunopositive neurons in arcuate nucleus, male ferrets, 42045
- glucose, polysensory properties of ventromedial nucleus hypothalamic neurons, cats, 30316
- high vs low affinity sites for 3H-cocaine binding in striatum vs hippocampus vs olfactory tubercle vs hypothalamus, male Wistar Kyoto vs spontaneously hypertensive rats, 18814
- hypothalamic & hippocampal monoamine & adrenoceptor changes & noradrenaline turnover, nonpregnant vs pregnant vs postpartum female rats, 38167
- hypothalamic vs mesencephalic lesions, conditioned inhibition of nictitating membrane response, rabbits, 22527
- hypothalamic 5-HT lesions, baclofen induced decrease of lordosis, female rats, 4445
- hypothalamus neuronal histamine alpha fluoromethylhistidine, ad libitum feeding, rats, 30312
- ibotenic acid in ventral median preoptic area, N-methyl-D-aspartate receptor mediation of drinking responses to angiotensin II vs hypertonic saline, male rats, 584
- icv pertussis toxin in hypothalamic paraventricular nucleus, apomorphine or oxytocin induced penile erection & yawning, male rats, 26681
- implantation of estradiol benzoate into ventromedial hypothalamus, sexual receptivity, sexually & asexually reproducing female whiptail lizards, 4845
- in ovo estradiol benzoate, demasculinization & sexual behavior & size of neurons in medial preoptic nucleus, male vs female Japanese quails, 15723
- inescapable shock induced learned helplessness, presynaptic serotonin mechanisms in hippocampus & hypothalamus, male rats, 30273
- interactions between amygdaloid & hypothalamic self stimulation, male rats, 8135
- intracerebral microdialysis, measurement of immobilization stress induced hypothalamic 5-HT & 5-HIAA release, male rats, 38229
- intracranial implantation of estradiol in mediobasal hypothalamus, progesterin receptor immunoreactivity & progesterone facilitated sexual receptivity, female guinea pigs, 12003
- intra-hypothalamic interleukin 1a, food & water intake & body temperature, male rats, 22746
- L-glutamate & electrical stimulation of lateral hypothalamic area, neuronal activity related to feeding & glucose sensitivity & odor responsiveness, hungry vs satiated monkeys, conference presentation, 11763
- lateral hypothalamic lesion, vestibular & supraspinal inhibitory mechanism in ventroflexion of head & neck, labyrinthectomized vs intact male rats, 22588
- lateral hypothalamic stimulation, analgesia for formalin induced tonic pain, female rats, 18959
- lesion of lateral internal medullary lamina vs midline thalamus & vs mamillary bodies & fornix, delayed nonmatching to sample, male rats, implications for pyriithamine induced encephalopathy, 42024
- lesions of preoptic efferents posterior to ventral tegmental area, maternal behavior, female rats, 18870
- light induced splitting & masking of wheel running behavior, in vitro electrical activity in suprachiasmatic nucleus, hamsters, 8267
- low vs high doses of hypothalamic growth hormone releasing factor, feeding behavior, female rats with vs without ventromedial hypothalamic nucleus lesions, 8450
- macrophage inflammatory protein 1 in ventromedial hypothalamus vs anterior hypothalamic preoptic area, food & water intake & body temperature, male rats, 26645
- male induced enhancement of lordosis, ovariectomized estrogen primed female rats with hypothalamic ventromedial nucleus lesions, 11823
- medial hypothalamus kainic acid & vs GABA receptor agonist THIP, defensive locomotion & rearing & leaping & urination & defecation in open field, male rats, 42420
- metabolic effects of galanin in paraventricular nucleus, energy expenditure & substrate use & locomotor activity & respiratory quotient, rats, 42359
- midsagittal & parasagittal suprachiasmatic nucleus knife cuts & vs pinealectomy, circadian activity rhythms, female rats, 30327
- morphine in paraventricular nucleus, icv oxytocin or sc apomorphine induced penile erection & yawning, male rats, 26643
- morphine in ventromedial hypothalamus, sexual receptivity, female rats, 4840
- naloxone, approach vs escape responses in mesencephalic central gray area vs lateral hypothalamus electrical self stimulation, male mice, 15738
- neonatal castration, development of sexually dimorphic area pars compacta vs suprachiasmatic nucleus & courtship ultrasonic vocalization, male gerbils, 605
- neonatal icv testosterone vs estradiol benzoate, feminine & masculine sexual behavior & hypothalamic & extra-hypothalamic monoaminergic systems, adult rats, 38414
- neurobehavioral changes, male 32 yr old assessed after surgical removal of craniopharyngioma in ventromedial hypothalamus, case report, 2190
- neuropeptide Y & Y1 & Y2 agonists & other fragments in hypothalamic paraventricular nucleus, nutrient intake & feeding behavior, male rats, 19109
- number of arginine vasopressin immunoreactive neurons in suprachiasmatic vs paraventricular nuclei, male mice high vs low selected for thermoregulatory nest building, 38135
- paraventricular hypothalamic neuropeptide Y, feeding & drinking, 3 vs 24 mo old male rats, 34168
- paraventricular nucleus of hypothalamus lesions, estradiol induced food & water intake & body weight & lordosis, female rats, 38152
- perfusion of neuropeptide Y in anterior hypothalamic preoptic area, body temperature & feeding, male rats, 11830
- piperazine, hypothalamic 8-OH-DPAT effects on lordosis, intact female rats, 4839
- posterolateral hypothalamus & midbrain raphe nuclei, visual cortex neurons, rabbits, 30282
- progesterone conjugated to bovine serum albumin in ventral tegmental area & vs ventromedial hypothalamus, non-genomic sexual receptivity, ovariectomized female hamsters, 38165
- prolonged pain & stress, corticotropin releasing factor induced opioid peptide release in hypothalamus, male rats, 18887
- propranolol, mitral tufted cell response to & olfactory associative conditioning with medial forebrain bundle lateral hypothalamus stimulation reward, infant rats, 18973
- propranolol vs pindolol vs prazosin vs yohimbine vs haloperidol, methamphetamine induced expression of interleukin-1mRNA in hypothalamus, male rats, 15836
- quinelone in paraventricular nucleus, penile responses & copulation, male rats, 12012
- quinpirole vs raclopride vs SCH 23390 vs SKF 38393 vs CV 205-502, frequency response function for hypothalamic self stimulation, male rats, 4796
- repeated immobilization stress, corticotropin releasing factor & vasopressin synthesis in parvocellular neurons of paraventricular nucleus, male rats, 38338
- role of thalamic basal forebrain cholinergic & hypothalamic cortical projection & other CNS arousal systems in delirium, 35132
- serotonin & dopamine & norepinephrine & epinephrine, lateral hypothalamus amphetamine induced anorexia, male rats, 38216
- sex steroids, aromatase & 5a-reductase complexes in hypothalamus, male rats, 8178
- single pulse stimulation of posterior hypothalamus, development of light responses in visual cortex in varied states of reticular formation, unanesthetized awake rabbits, 26379

- social isolation, stress induced behavioral & hypothalamic pituitary adrenal hormone response, 7 vs 14 vs 21 day old rats, 11963
- suprachiasmatic nuclei ablation, nonphobic entrainment of circadian activity rhythms, male hamsters, 18991
- testosterone implants in medial preoptic area vs septum vs caudate nucleus, aggressive behavior, male mice, 42022
- testosterone vs dihydrotestosterone vs estradiol vs progesterone vs deoxycorticosterone vs cortisol in anterior hypothalamus, flank marking & aggression, male golden hamsters, 12038
- testosterone with vs without aromatase inhibitor R76713, aromatase immunoreactive neurons in preoptic area vs bed nucleus striate terminalis vs tuberal hypothalamus, male quails, 38379
- topography of galanin immunoreactive neurons of tuberomammillary nuclei of hypothalamus, postmortem brains of 66-91 yr olds with senile dementia of Alzheimer's type, 6071
- triazolam, phase shift in circadian locomotor activity after suprachiasmatic nucleus intraventricular grafts, male hamsters, 22743
- 1-phenylephrine vs clonidine in paraventricular hypothalamus, food intake, male rats, 12155
- 2-deoxyglucose vs UK-14304 vs 8-OH-DPAT, food intake & plasma glycemia & insulin & 3H-mazindol & 3H-dazoxan binding in hypothalamus, male hamsters, conference presentation, 11762
- 2,5-anhydro-D-mannitol in 3rd cerebral ventricle vs hypothalamus, food intake & plasma glucose & insulin, male rats, 22798
- 5-ADMP in ventromedial & medial preoptic nuclei of hypothalamus, lordosis, ovariectomized female rats treated with estrogen & progesterone, 4414

# PSYCHOLOGICAL ABSTRACTS IS OPENING A NEW CHAPTER!

Now a single print product gives users access to chapter, book, and journal information from all areas of psychology and related disciplines. APA's *Psychological Abstracts* (PA) brings users nearly 3,000 journal abstracts every month and NOW includes book chapter and book information\*.

Both psychologists and librarians have reported that they want the convenience of having a single source for ALL of the information available from books, book chapters, and journals. That's why chapter and book summaries are included in the monthly issues of PA.\*\*

PA gives your users an overview of research in psychology and related fields, sums up articles from over 1,100 English-language journals and over 1,500 books annually, shows everything that's new in a given specialty, and much more!

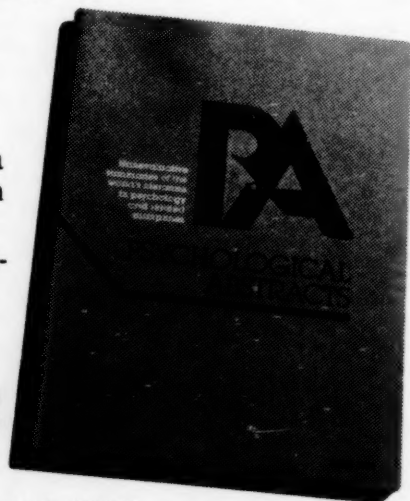

Don't miss out on psychology's richest resource on current literature! PA is priced at \$1,245 per year for institutions. Well worth it for over 3,750 journal and book abstracts per month!

For more information, write to: American Psychological Association, 750 First Street, NE, Washington, DC 20002-4242, or call: 800-374-2722. In Washington, DC call 202-336-5650.

*Psychological Abstracts*...

- reports advances appearing in journals and books that may not be read on a regular basis
- enables users to pick up main ideas at a glance by highlighting the key points in a given document
- saves research time by virtue of PA complete bibliographic data for all citations
- and lets users find what they need in a hurry with its reader-friendly indexes for each month and year.

**PsycINFO**  
Psychological Abstracts Information Service

\* This book-related material previously appeared separately in *PsycBOOKS*.

\*\* Summaries in PA will continue to be grouped by subject classification, as well as now by source: SERIAL, BOOKS, and CHAPTERS. We've retained the style which PA subscribers find most efficient, and integrated the strengths of the former version of *PsycBOOKS*.

## The PsycINFO® Database

Psychology's most comprehensive source, PsycINFO contains references to all relevant original research and other significant published material, drawn from more than 1,300 journals, dissertations, and technical reports. More than 50,000 new records are added annually. PsycINFO is the source for the printed *PA*, PsycLIT® on CD-ROM, and the PsycSCAN publications. PsycINFO also offers the PASAR® search service, staffed by specialists who can formulate search strategies tailored to your individual requirements. Look to the PsycINFO database for all your research in psychology and related disciplines.

## Psychological Abstracts®

The essential reference guide to the world's literature in psychology and the social sciences, *PA* also covers behavioral issues in law, education, business, and medicine. Beginning with the January 1992 volume, *PA* not only includes unparalleled worldwide coverage of serial literature in psychology, but also book chapter and book records in psychology. The monthly issues offer:

- more entries than ever before
- an annual index
- monthly indexes
- journal publishers' names and addresses in the annual index
- thorough author and subject listings

This resource is an indispensable complement to every library reference shelf.

## PsycSCANS®

A series of inexpensive, subject-oriented publications especially geared for individual use. Each contains abstracts of the primary literature in selected topics in psychology. APA's newest PsycSCAN, *PsycSCAN: Neuropsychology*, will keep you up-to-date on current research in aspects of the relationship between the brain and behavior, in a wide range of clinical and nonclinical areas. PsycSCANS are issued quarterly and include an abstract, index terms, and full bibliographic information. Get more than 1,500 abstracts in a one-year period in the specialty of your choice!
